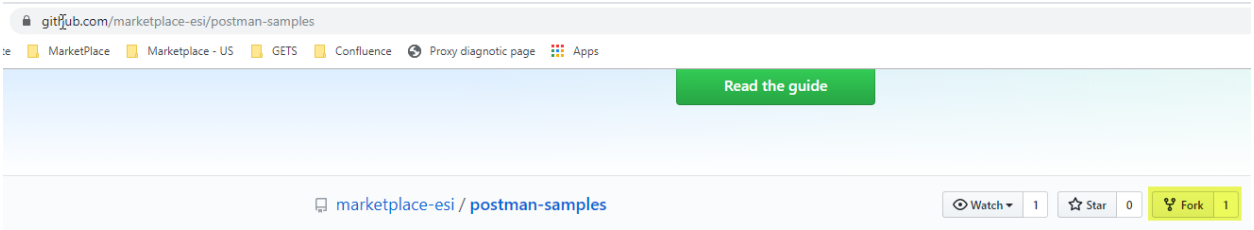
GitHub Procedure

Credentials

All contributions to the GitHub repository postman-samples require a GitHub account. Please connect to https://github.com/ and login or create an account first via the 'Sign up for Git-Hub' option.

Forking the Repository

Browse to the URL https://github.com/marketplace-esi/postman-samples and select the 'Fork' option to add the repository to your login.



Cloning the Repository

The repository is now available in the Personal space and can be uses to 'Clone' the Repository. Select the repository 'postman-samples', select 'Clone or Download' and copy the URL.

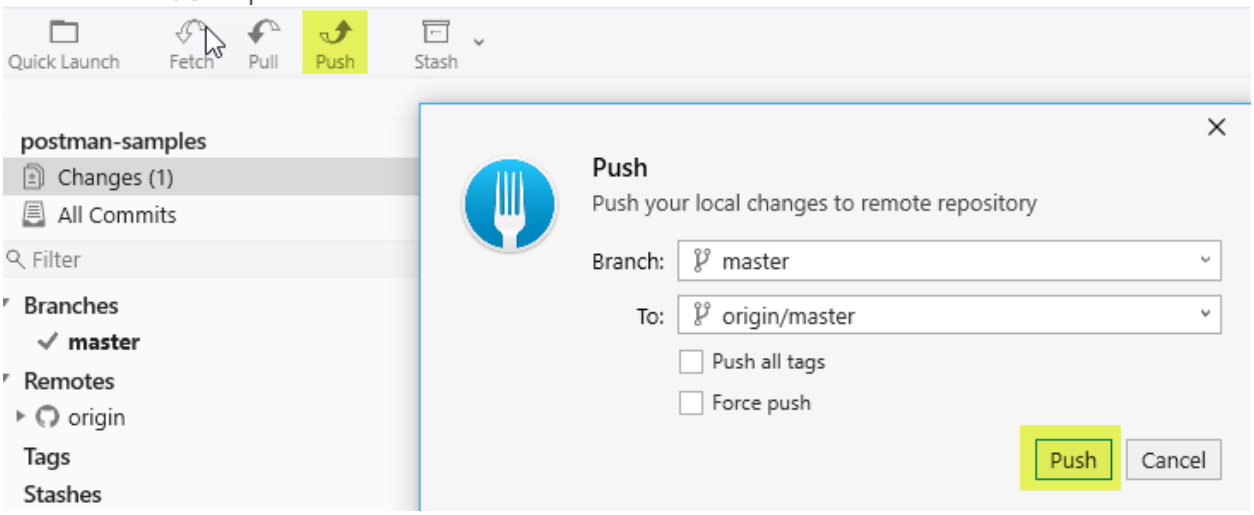
Push the Repository Changes

Please perform the following actions in your git client to push the data to your personal GitHub repository:

- Select the '**Stage**' option

- Select the '**Commit**' option after entering a commit subject

- Select the '**Push**' option



After successful completion the code in your personal GitHub repository is updated.

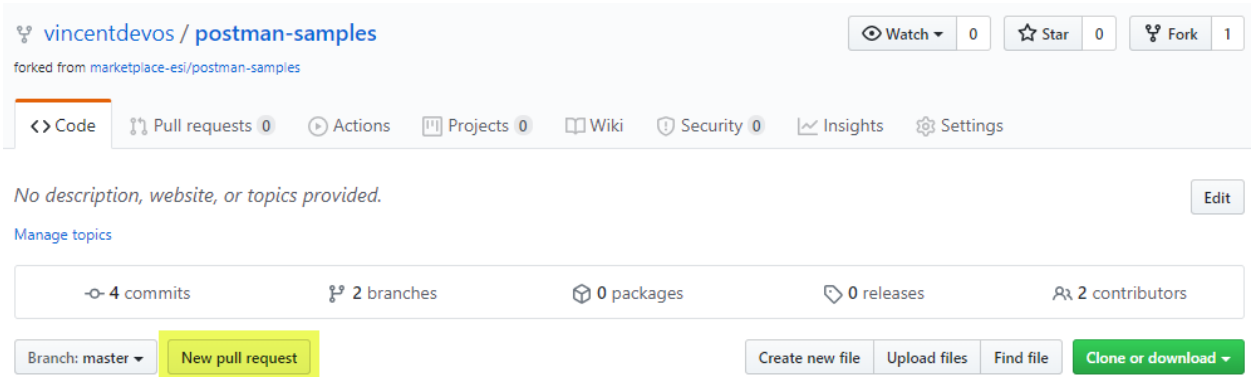
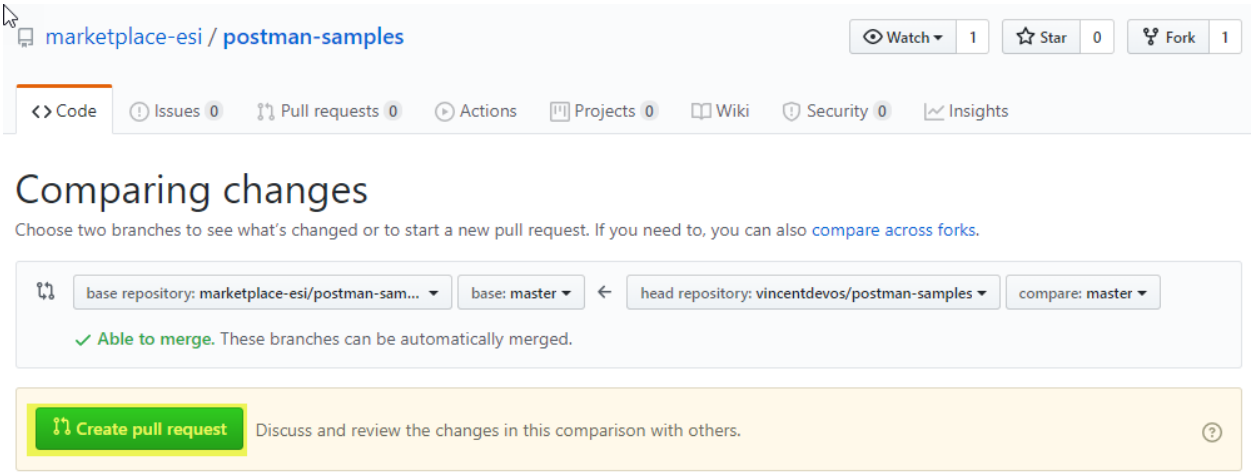
Create Pull Request

Return to your personal space in GitHub using a browser and perform the following steps to request a merge of the personal Repository with the Marketplace ESI Repository:

- Select the '**New Pull Request**' option

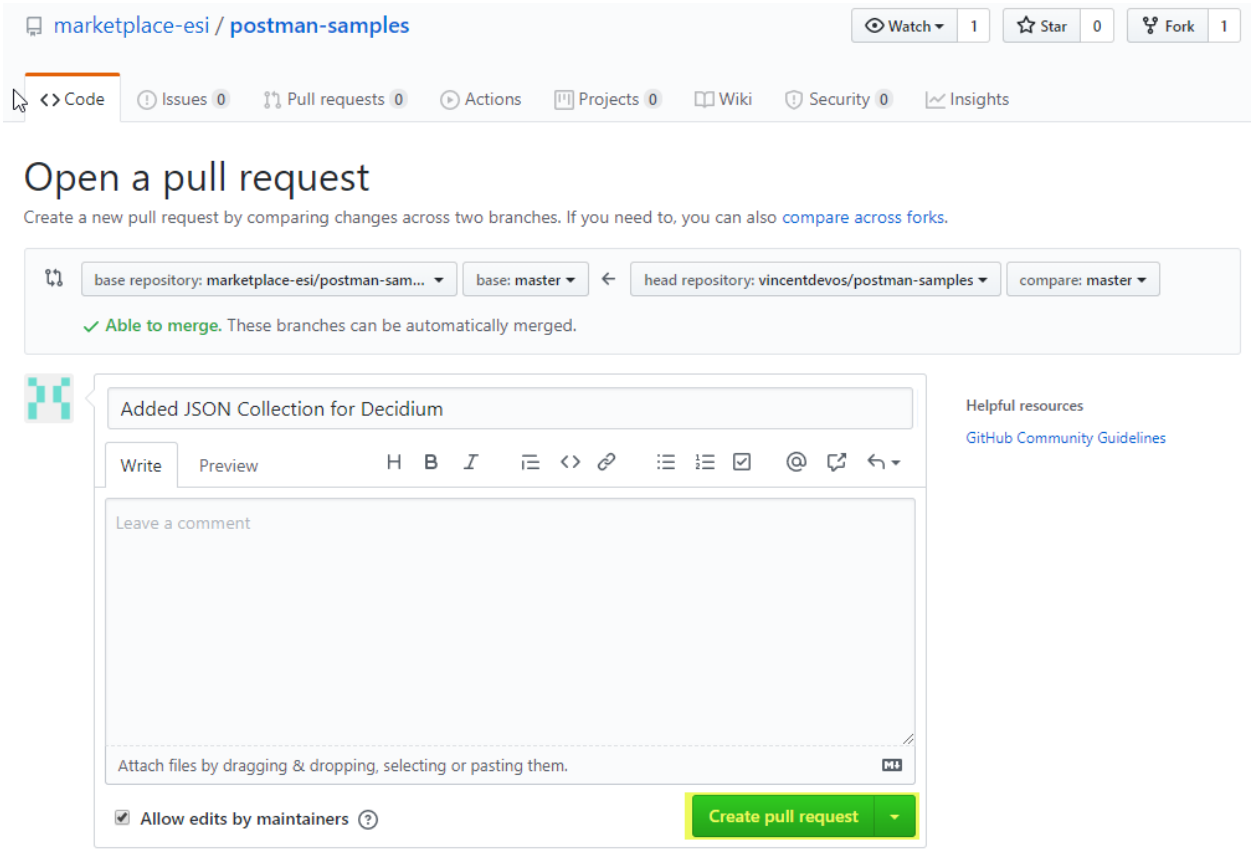


- Select the '**Create Pull Request**' option



ADP, the ADP logo, and Always Designing for People are trademarks of ADP, LLC.
Copyright © 2020 ADP, LLC..

- Select the '**Create Pull Request**' option once more



After completing all steps, the Marketplace team receive a notification to merge the data.
